

AGENDA
SSC Meeting
Wednesday, 4 March 2009 1:00 p.m. MST
Visualization Lab, NCAR

1. What needs to be done to produce CCSM4 with a carbon cycle?
 - Short status reports from Phil (atm) and Gordon (carbon).
 - The ocean, land and sea ice say they are virtually frozen.

2. Should all AR5 runs include the new superfast chemistry?

3. Update on the new Science Plan and the new Strategic Plan
