

**CCSM Climate Change Working Group  
AGENDA**

**The Village at Breckenridge, Ten Mile Room  
Thursday, 22 June 2006  
10:30 AM – Noon**

**Co-Chairs:**

**Gerald Meehl, NCAR, Warren Washington, NCAR, and Ben Santer, PCMDI**

The session will consist of five AMS-style short talks, followed by discussion of CCWG plans for the coming year.

**IMPORTANT NOTICE FOR SPEAKERS:** Each talk will be 12 minutes (time limit strictly enforced), followed by a question or two.

Greeting and Introduction, Gerald Meehl, NCAR

10:30AM-10:45 AM Johan Feddema, University of Kansas  
“Land Cover Change Experiments and the Urban Model in CLM”

10:45AM-11:00 AM Yoshikatsu Yoshida, CRIEPI, Japan  
“Response of Meridional Overturning Circulation at Doubled, Quadrupled and Octupled CO<sub>2</sub> in Increasing CO<sub>2</sub> Experiments using CCSM3”

11:00AM-11:15 AM Aixue Hu, NCAR  
“The Role of the Bering Strait Throughflow in North Atlantic Water Hosing Experiments”

11:15AM-11:30 AM Michael Wehner, Lawrence Berkeley National Laboratory  
“Future Changes of Return Values of SST Anomalies in Tropical Cyclogenesis Regions”

11:30AM-11:45 AM Ben Santer, PCMDI  
“Causes of Ocean Surface Temperature Changes in Atlantic and Pacific Hurricane Formation Regions”

11:45AM-12:00 PM CCWG Plans, Gerald Meehl, Warren Washington, and Ben Santer
